ChatGTP for helping to understand the articles better, but thought to note that!

Description

Name: Nadia and Jaylene

Role: Co-Researcher/Co-Designer of Portfolio

Collaboratively investigated the ethical implications of AI and Education.

Wrote the introduction, providing historical context and outlining the paper's purpose together.

Identified and analyzed three key ethical issues related to AI: privacy concerns, bias, and equity/access together.

Applied ethical theories (Utilitarianism, Deontology and Rawlsian Justice) to each identified issue that was found together.

Worked together to draft and polish the paper, ensuring that all sections flowed well.

Reviewed and revised the final paper for clarity, accuracy, and proper citation formatting together.

Jaylene worked the most on the portfolio, and I worked a lot more on the articles. But we both did them together
